

ServoJet

your Decoration solution

Digital Print
for 3D OBJECTS

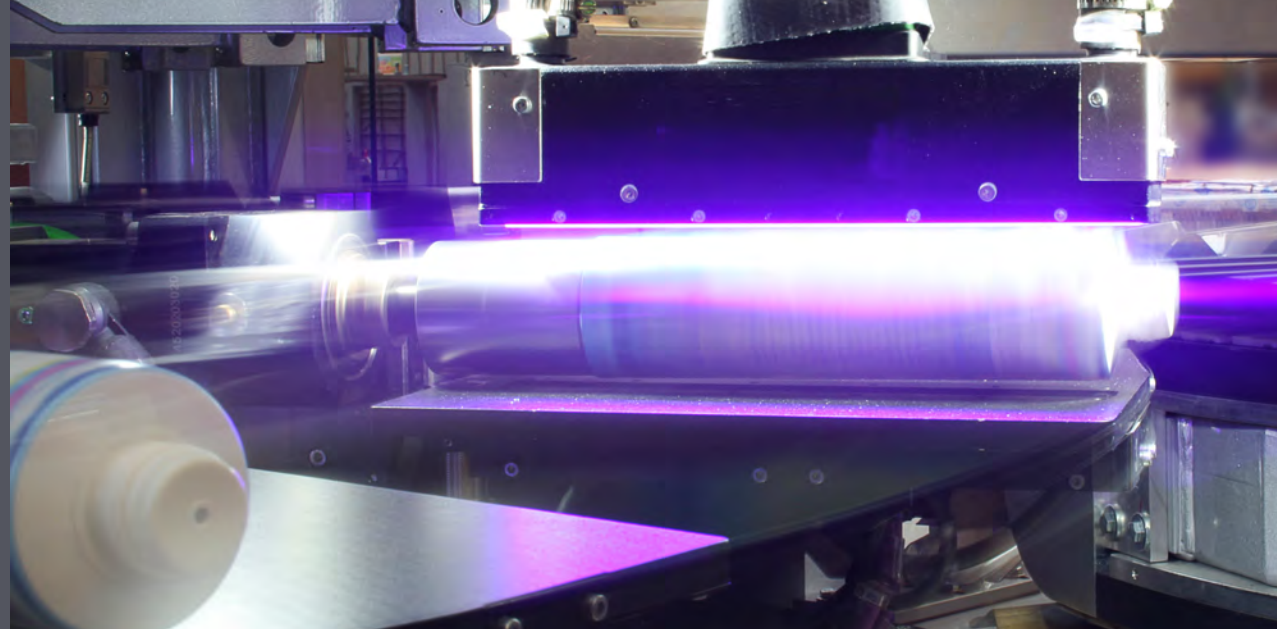

www.omso.it

FORMAT

Version for soft/rigid tubes and bottles, full height print, up to 7 colors;

PRE-PRESS

Integrated pre-press computer station

Precise surface treatment, pin and final UV LED curing

UV CURING

Powerful diagnostic and automatic inkjet head maintenance

DIAGNOSTIC

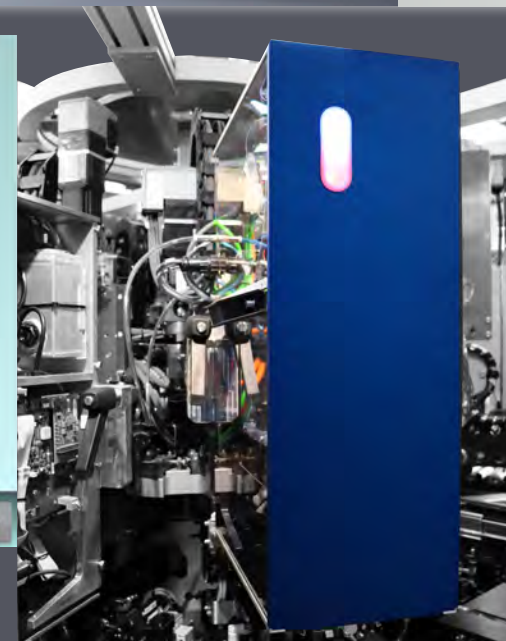

TOOL FREE
CHANGE OVER

Quick change over time, for both image and object size;

All groups dedicated with full servo management, table indexed with torque motor for precision;

ERGONOMY

Compact footprint, easy installation and operation

Flexible configuration with smart color module, for easy color change and maintenance

SMART COLOR
MODULE

Full digital system, advanced inkjet technology for 3D container

TECHNOLOGY

CONTAINER DATA*

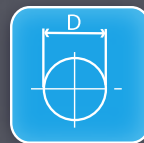

Min/Max
D: ≥ 8 mm / D: ≤ 60 mm

H:
 ≥ 20 mm
 ≤ 210 mm

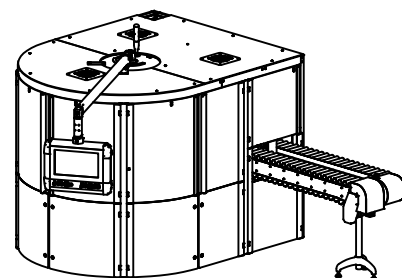

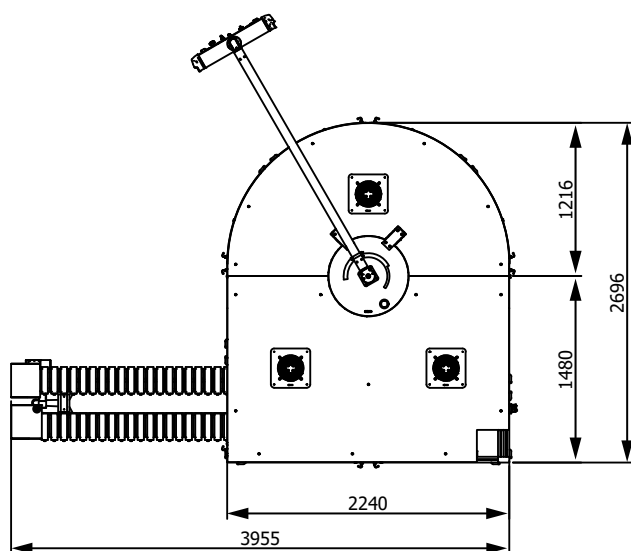

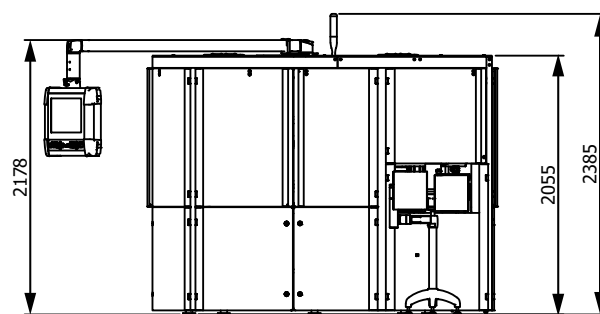

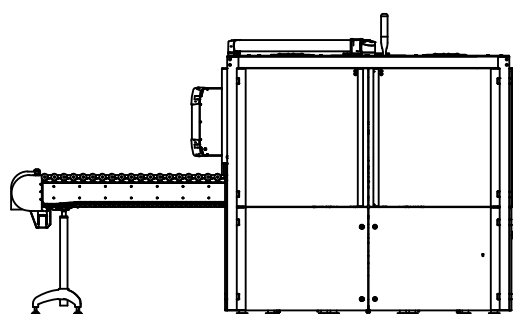

H:
 > 20 mm
 ≤ 250 mm

Round
D: > 8 mm / D: < 100 mm

*After the approval of the OSMO technical office

GENERAL

Speed production
70 pz/min
(data depending on container and print type)
